

CERAMIC ARMOUR

Hybrid Ceramic Spray Wax

SiO₂ Ceramic Protection

Chemically bonds to the vehicles paintwork to form a tough, durable barrier.

Hydrophobic Properties

Creates a water-repellent surface that allows rain & liquids to bead off effortlessly, reducing water spots and preventing mineral deposits.

Enhanced Gloss & Shine

Amplifies the depth and clarity of the vehicle's paint, giving it a professional, high-gloss finish.

Easy Application

Designed for both professionals and car enthusiasts, the product is easy to apply in handy trigger or aerosol.

Nano-Technology Integration

Fills microscopic imperfections on the car's surface, creating a smooth, flawless look that enhances the longevity of the coating.

Easy Maintenance

Once applied, can last up to 10x regular washes over top.

USE ON

Cars, Trucks, Boats, Vans, Utes, any Vehicle plastics.

(Any painted metal surface that requires enhancement & protection from the elements)

COVERAGE

300g/400ml Aerosol – protect up to 3 cars

500 ml Trigger Bottle – protect up to 5 cars
