CRC Auto AC Pro Cleaner

I. Product Description

The CRC Auto AC Pro Cleaner eliminates the disturbing smell generated by contamination of the evaporator air conditioning system. The CRC Auto AC Pro Cleaner cleans the air conditioning system in an optimal way by mean of its unique foam formula. The product leaves a fresh smell.

II. Features & Benefits

- Cleans the evaporator and air conduits from all contaminations.
- Contains an anti-bacterial agent
- 45mm extension hose included

III. Application Directions

READ ENTIRE LABEL BEFORE USE. Always follow vehicle manufacturer cleaning recommendations.

1. Ensure engine and all electrical installations are switched off.
2. Remove cabin air filters and any other filter systems.
3. Shake can well and attach extension tube to can nozzle.
4. Insert extension tube about 30cm into air inlet of AC system and spray until system is full of foam.
5. Allow product to work for at least half an hour - during this period the foam will discharge through AC drain.
6. Turn on the engine and leave it at idle speed for 10 to 20 minutes, with the heating and ventilation system at maximum.
7. Check AC evaporator is dry and replace cabin air filter.
8. During the complete operation and until total evaporation of the active foam, any enclosed workspace must be ventilated by opening doors and windows. Leave the car hood open.

IV. Typical Properties and Characteristics

Character	Milky Foam
Application Temperature	15 – 35°C
Propellant	Hydrocarbon

V. Package Description

Part Number Size

1753204 Aerosol 470g / 500ml

VI. Special Precautions

Pressurised Container. Do not puncture, incinerate or store above 50°C. Exposure to high temperatures may cause can to burst. Do not place in direct sunlight or near any heat source. Aerosol cans will conduct electricity. Keep away from all live electrical sources including battery terminals, solenoids, electrical panels and other electronic components. Failure to observe this warning may result in serious injury from flash fire and/or electrical shock.

First Aid:

Swallowed – Avoid giving milk or oils or alcohol. Not considered a normal route of entry.
Skin – Flush skin and hair with running water (and soap if available). Remove any adhering solids with industrial skin cleansing cream. DO NOT use solvents. Seek medical attention in the event of irritation.
