Product No: 19200

TECHNICAL DATA SHEET

CRC Industries (Aust) Pty. Limited

PO Box 199, Castle Hill, NSW 1765. ACN 000 725 833

I. Product Description

KITTEN ULTRA CUTTING COMPOUND is designed to remove heavily weathered layers of paintwork and for restoring poor surfaces.

It also removes imperfections, old waxes, tar and scratches. After using **KITTEN ULTRA CUTTING COMPOUND**, surfaces should be polished with **KITTEN ULTRA CREAM POLISH No 1**.

KITTEN ULTRA CUTTING COMPOUND contains a high quality, specially selected abrasive that is ideally suited for hand rubbing applications.

Not recommended for paintwork in good condition, or on newer cars with metallic paint or clear coat finishes.

II. Features & Benefits

- Rejuvenates heavily weathered, dull, faded surfaces
- Removes imperfections - old waxes, tar, scratches, swirl marks, stains, paint defects etc.
- Quickly & easily cuts through oxidized surfaces
- Suitable for hand rubbing applications
- Light weight DIY buffing compound

III. Application and Directions

Application:

- Wash car and chamois dry.
- Make a pad of clean, open weave cloth or use sponge supplied.
- Apply **KITTEN ULTRA CUTTING COMPOUND** to the pad. **NEVER DIRECTLY ONTO THE JOB.**
- Use sparingly, as too much retards the cutting action.
- Apply over a small area. Rub with straight back and fourth motion until the desired surface is obtained, then finish with another clean, dry cloth.
- If thinning is required – add water and stir until the desired consistency is obtained.

Protect and preserve the finish with **KITTEN ULTRA CREAM POLISH No 1**.

Handy Tips:

- Do not apply on hot surfaces, or in direct sunlight.
- Do not use on non-painted surfaces or plastic trim.
- Keep tin airtight.
- **Not recommended for paintwork in good condition, or on newer cars with metallic paint or clear coat finishes.**

Product No: 19200

IV. Package Description

Part Number	Size
19200	325g tin

V. Special Precautions

First Aid:

If in Eyes – Immediately hold the eyelids apart and flush the eye continuously for at least 15 minutes with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids. Refer to Safety Data Sheet for more details.
