

CRC Food Grade Synthetic Grease is a NLGI 2 lubricating grease formulated with the highest quality raw materials available.

Because this grease has a high dropping point, it is particularly useful in high temperature applications. This product also performs extremely well in cold temperature applications as the base fluid exhibits a very low pour point.

Temperature range from -34°C to +232°C. NSF H1 Registered for incidental food contact.

Item Code: FGSL35610

Pack Size: 396g

Features and Benefits

- **Resists rust and oxidation**
- **Highly resistant to moisture and water wash-out:** Will not wash off when equipment is cleaned
- **NLGI Grade 2 Synthetic Grease**
- **Wide Temperature Range:** Effective from -34°C to +232°C
- **NSF H1 Registered for incidental food contact**

Typical Properties and Characteristics

Flash Point	225°C TCC
Odour	Mild
Appearance	Viscous clear grease
Solubility	Insoluble
Dropping Point	None
NLGI Grade	2
Pour Point	-52°C
VOC	0%

Viscosity @ 40°C	63 cSt
Viscosity @ 100°C	10 cSt
Viscosity Index	135
Temperature Range	-34°C to +232°C

Directions

1. Do not mix greases of different base type.
2. Use a solvent to remove and clean out traces of incompatible grease before repacking.
3. Repack according to manufacturer's instructions.

Special Precautions

General:

Use with adequate ventilation. Open doors and windows or use other means to ensure a fresh air supply during use. Observe good industrial hygiene practices. Store away from incompatible materials. Do not store container above 100°F / 37.8°C. First Aid: Wash hands after handling.

Dispose of contents/container in accordance with relevant regulations. All unused product should be disposed of in conformance with local and hazard regulations, do not contaminate water supply.

Refer to **Safety Data Sheet** for more details.

Product Warranty or Shelf Life

CRC offers a conditional warranty on this product for the period of 5 years from the date of manufacture.
