

CRC Industries (Aust) Pty Ltd

I. Product Description

CRC Etch It is a single pack etch primer with excellent adhesion to bare metal. It is formulated for etching and key-coating bare aluminium, stainless steel, brass, copper and galvanised metal surfaces and forms a tenacious key coat to provide adhesion for a paint system.

II. Features & Benefits

- Provides adhesion for top coating aluminium, stainless steel, brass, copper and galvanised iron
- Tough durable film
- Fast drying
- Compatible with most standard decorative paint systems for metals
- Effective on clean metals
- Ready to Use Aerosol – No additional mixing or chemical additives required. Easy application. No clean up.

III. Compatibility

Can be applied over:

Bare aluminium, stainless steel, brass, copper and galvanised metal surfaces.

Can be overcoated with:

CRC Prep It. CRC Zinc It. CRC Bright Zinc. CRC Coloured Zinc Coatings. Most standard decorative paint systems for metals.

Surface Preparation:

1. Remove signs of corrosion with a wire brush or emery paper or similar.
2. Clean surface with CRC Brakleen or similar degreaser if required.
3. Where possible, abrade surface with disc grinding, wire brush or sandpaper.

Application:

1. Shake can until agitator ball is moving freely and then for at least 1 further minute to ensure content is thoroughly mixed.
2. Apply one thin coat with smooth even strokes to clean, dry surface holding can approximately 25cm from surface.
3. When finished spraying, clean valve by turning can upside down and pressing button until only pressure escapes.

Application Data:

Touch Dry	20 minutes
Full Cure	1 hour
Time to Overcoat	1 hour minimum 3 months maximum
Recommended Film Thickness	To full opacity
Theoretical Coverage	Up to 3 m ² /aerosol can
Clean up with	Acetone, lacquer thinner

CRC Industries (Aust) Pty Ltd.

IV. *Typical Properties and Characteristics*

Propellant (Aerosol)	Hydrocarbon
Temperature Range	Up to 120°C
Reapplication period Indoors	Not applicable, designed to be overcoated
Reapplication period Outdoors	Not applicable, designed to be overcoated
Colour	Grey
Odour	Solvent
Resin Type	Epoxy ester

V. *Package Description*

Part Number	Size
2110	Aerosol 400 ml

VI. *Special Precautions*

General:

The solvents in CRC Etch It are highly flammable. Keep away from naked flames, electrical appliances/lights, lighted cigarettes, etc. Use with adequate ventilation. Do not eat, drink or smoke while using. Store in a cool, well-ventilated area. Dispose of empty containers safely. All unused product should be disposed of in conformance with local regulations, do not contaminate water supply.

Aerosol Cans:

Do not puncture, incinerate or store above 50°C. Exposure to high temperatures may cause can to burst. Do not place in direct sunlight or near any heat source. Aerosol cans will conduct electricity. Keep away from all live electrical sources including battery terminals, solenoids, electrical panels and other electronic components. Failure to observe this warning may result in serious injury from flash fire and/or electrical shock.

First Aid:

Swallowed – Give water to dilute. Do not induce vomiting. Do not give milk or oil. Do not give alcohol. Get medical attention without delay.

Skin – Remove contaminated clothing and wash skin thoroughly with soap and water. Do not scrub skin. Apply cleansing cream. Wash contaminated clothing before reuse.

Eyes – Hold open and rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention without delay.

Inhalation – Remove to fresh air. If breathing with difficulty, get medical attention immediately.

Refer to Material Safety Data Sheet for more details.
